About Me

Micah Rus - Junior Developer

[Home](#)[About](#)[Blog](#)[Projects](#)[Contact](#)

Hi I'm Micah, an aspiring full stack developer. Currently studying a diploma of information technology at CoderAcademy.

I have always had a strong interest in computers and gaming, and was coding from a young age in a program called game-maker.

I am an extremely competitive person who always strives to be the best at whatever I do, I love competitive team based games like basketball or dota2.

In terms of working by myself or with others. I appreciate the strengths and weaknesses of both and have no preference!
